

Activity 2 – Designing Your Own Infographics

Please print this paper and keep it for reference purposes. It will be signed by the professor in charge to mark its completion and record.

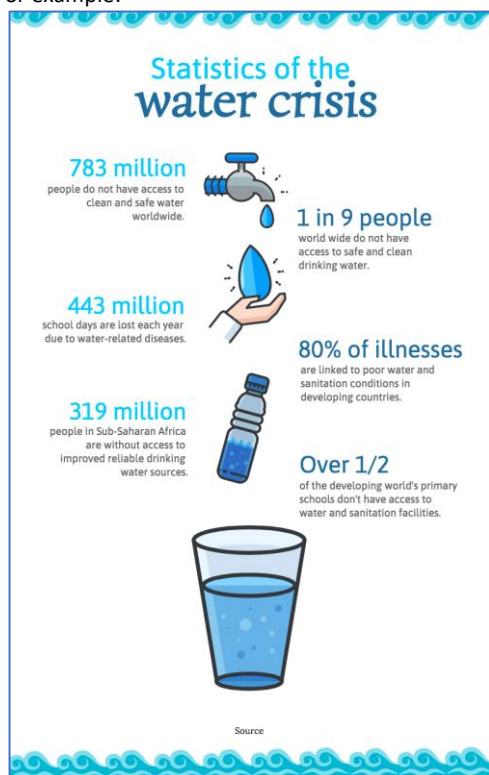

Group Name: _____

Date: _____

Group Members:

Infographic is one of the common ways of presenting data insights for non-technical people to understand in one glance. Having a skill on the matter is crucial for visual graphics design.

For example:

Look and analyze the infographic on the left side.

Using the infographic alone, answer the following questions:

a. What does the infographic talk about?

b. Does the title speak properly of the content?

c. Is the design of the infographic match the theme of the message?

d. Are there any improvements needed for this?

For each group, choose a data set from the following:

a. Index of Industrial Production

Link:

<https://drive.google.com/open?id=1JHzsJGXkz05LJstUvt6V7ZYRI20sUyQ2>

b. Agricultural Production

Link:

https://drive.google.com/open?id=1FN6Wja6ROk_m4BcV-wbwyg7Z8z9BU9vS

c. Internet usage

Link:

https://drive.google.com/open?id=1FCcov1lKMvfdZp1uysUn6_SXbZlq8czc

d. Tourist Visitors

Link:

<https://drive.google.com/open?id=1i59zBtNkkg2M4qOBQP-0rQWE4ZcCmU2X>

Create your own infographics describing the data set. You may choose any significant parts of the data to highlight.
